Rush of Land Seekers Continues.

Though the registration for the forest reserve land drawing was the heaviest on the opening day, the number of arrivals has averaged over 2,000 since Monday, and it is generally believed that the total by Saturday evening of next week will not fall much short of 25,000. Though up to this time practically ten thousand visitors have been in North Platte, the crowd each day and night has been well taken care of both as to lodging and eating accommodations.

In fact there has been no night when there were not more available rooms than were needed. Sleeping accommodations were further increased Tuesday when Perry Carson shipped in fifty or more cots and placed them in the Lloyd opera house. The number of visitors during the day is always greater than at night, as a majority of those who arrive on the day trains leave on the night trains. The train service on the Union Pacific is so excellent that it is possible to arrive from the east at 5:30 in the evening and leave at 10:30 the same night, or arrive in the morning and leave at noon. The service west is almost as convenient.

The patronage at the restaurants and boarding houses during the past four or five days has been the greatest ever known in the city, while hundreds of lunches are served daily at the street stands.

Those coming to register are from all parts of the country, some coming from as far east as Ohio. Outside of Nebraska, the state of Kansas leads in the number, with Iowa next and Missouri and Oklahoma a close fourth. It is estimated that 2,500 of the arrivals have been by automobiles. At least 100 cars have come through from Kansas, and not a few have made the trip from Iowa in cars.

Those registering represent all classes and conditions of men; the well-to-do appearing man elbowing with the man whose appearance would indicate that he had to borrow the quarter to pay his registration fee. A large percentage of those registering are young men, yet many old soldiers have registered by executing powers of attorney to agents. Quite a few women have registered, and it is reported that half a hundred Omaha school ma'ams will arrive tomorrow.

A special train of twelve cars from points in Kansas is expected Tuesday or Wednesday of next week. There will be 600 or 700 in this Kansas party. There are many North Platte people who have not yet registered; waiting evidently for a cessation of the rush.

The biggest crowd at the registration booths follows the arrival of each train; as soon as the train comes to a stop there is a pell mell rush to get off and a hurried walk to the booth. The registration work proceeds like clock-work, it is as perfect as though machine made and machine driven. The force of notaries is always ample to take care of the rushes, and there is no long standing in line. From 200 to 300 an hour can be handled if necessary. Each local train from the east brings in from 150 to 300; those from the west from fifty to 100. This has been the average so far this week, and at present it looks as though the average would continue until the close.

Many passengers who go through on the fast trains take advantage of the opportunity to register, having just about enough time to make a run for the booth, register and get back to the depot before the train leaves.

Contracts have been let for sidewalks to east H St, on south Pine St and on Dewey St. to irrigation ditch. All in Taylor's addition.

Why Their Clothes Didn't Fit.

The late Admiral Robley D. Evans during his visit to Japan was received by Mutsuhito and his empress at a court ceremony. In speaking of the Japanese court he said: "Hand kissing was not the thing. Instead, I received a handshake from a very shapely and beautiful hand. I found the empress a woman of great refinement and perfect ease of manner, so delicate in appearance and so small in stature as to remind you of some fine piece of Dresden china. She was attired in a Paris gown of heliotrope brocade, the bad fit of which I accounted for just as I accounted for the baggy trousers of the emperor. After I had been a year in Japan I was satisfied it was owing to the fact that a tailor would not permit himself to touch the persons of their majesties, but just looked at them and guessed what the measurements should be."

Long Lived Spaniards.

Though the average age of Spaniards is among the lowest in Europe—thirty-two years and four months, against fifty years in Sweden and Norway—yet Spain remains the land of hundred-year-old people.

South of the Sierra Morena there are fifty to sixty a hundred years old in every million inhabitants. In Malaga and other parts of Andalusia 100 hundred-year-olds are reckoned in every million inhabitants. And when a Spaniard once attains that age he usually hangs on to life for ten to fifteen years longer.

One of the famous long lived men of Spain was Dr. Manuel Barca, who lies buried in the Church of San Sebastian at Seville, having 121 years to his credit, according to the church record. He left 300 descendants.—Boston Post.
